BUFFALO MUSEUM OF SCIENCE / TIFFT NATURE PRESERVE
FACILITY RENTALS

www.sciencebuff.org | 716.896.5200

THE BUFFALO MUSEUM OF SCIENCE WILL PROVIDE YOUR GUESTS WITH AN
experience they won't soon forget.

Hamlin Hall, an elegant hall in the heart of the Museum, is the perfect area for formal events, from sit-down dinners to lively receptions.

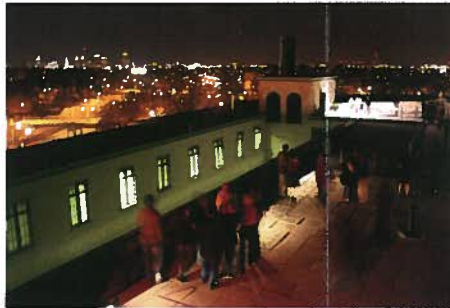

A serene retreat in the city, **Tift Nature Preserve** is located just three miles from downtown Buffalo off the new Outer Harbor Parkway. A large room and amenities are available indoors. However, the 264-acres containing five miles of trails, three boardwalks and cattail marsh are the real draw. Fishing at Lake Kirsty, snowshoe rentals and expert guides are also available.

Our **auditorium** provides a special venue for your concert, theatrical production or presentation.

One of Buffalo's most scenic spaces, a party on the **rooftop observation deck** will have your guests talking about their experience for years to come.

Our second-floor **balcony** is connected to the original Museum façade and presides over the first-floor **atrium**. With a four-story ceiling and grand staircase in the middle, this area can be used by itself or in conjunction with Hamlin Hall.

The **Cummings Room** features flexible set-up for everything from workshops and training sessions to sit-down dinners and banquets.

Comfortable, upholstered chairs around a large table allow for plenty of space for your next business meeting in our **conference room**.

| ROOM | CAPACITY | SQ. FEET |
