The Buffalo Museum of Science is the non-profit educational institution dedicated to the study and interpretation of the natural and physical sciences. Its extensive collections of over 600,000 specimens and artifacts represent all facets of the natural world with an emphasis on Western New York as well as man-made objects spanning the globe. Based at 1020 Humboldt Parkway and anchoring Buffalo's East Side in Olmsted-designed Martin Luther King, Jr. Park since 1929, the Museum presents a wide variety of programs and services for children, teachers, families, adults, and community organizations throughout each year. General admission to the Museum is \$7 adults; \$6 seniors (age 62+); \$5 students and children over 3; and free for members and children under 3. The Museum also operates Tiffit Nature Preserve in South Buffalo, a 264-acre urban wetland preserve on reclaimed former industrial land and seasonally sponsors archaeological exploration at the Hiscock Site in nearby Genesee County, NY, one of North America's richest Ice Age sites.
