

step up for SCIENCE

Saturday, September 30, 2023 | 6 - 9 p.m.

Join the Buffalo Museum of Science on **Saturday, September 30** for a festive evening in support of the Buffalo Museum of Science's mission. Step up for science and help us advance science learning in WNY. The entire museum will be open to explore with food and cocktails, live entertainment, and fun activities.

We anticipate 500 guests at the event. Sponsorship opportunities provide an array of recognition and marketing exposure as well as employee or client engagement opportunities.
