

Science Below Zero Birthday Party

Get ready for the coolest party on the planet! Step into a world of freezing fun where science meets jaw-dropping excitement. Watch mist blast high into the air, see a balloon shrink before your eyes, hear a rubber ball shatter like glass, and discover the frosty magic of all sorts of cold elements! The adventure kicks off with dry ice experiments that will wow the crowd, then dives into the mind-blowing wonders of liquid nitrogen. Next, guests will feel the thrill of exploring rocket fuel in action.

To top it all off, everyone gets to create something amazing to take home:

Ages 5 and under:

- Make your very own fluffy fake snow to play with.

Ages 6 and older:

- Grow dazzling crystals that sparkle long after the party ends.

From frosty fun to explosive experiments, this party is an unforgettable science adventure!

**Activities can be changed to a different age group if requested upon booking*
